Repairs were made on roads when defects were called to the attention of the selectmen, and the roads kept in as good condition as possible under the circumstances. About \$40.00 of the account of S. G. Day should properly go to West Bath roads, as it was for team work done by him in that section.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

TO THE SCHOOL BOARD OF BATH TOWN SCHOOL DISTRICT:

As superintendent of schools, I present herewith my first annual report, the fifth in the series of district superintendent's reports.

ENROLLMENT.

The total enrollment for the present year is 81, two more than last year. This number does not include the ten pupils in the grades of the Woodsville schools, whose tuition is paid by the Bath district. The registration in each school is as follows: Swiftwater, 24; Hibbard, 21; Nutter, 13; Pettyboro, 12; Carbee, 11.

The Sawyer school has been closed and the tuition of pupils from that district paid in Woodsville at a considerable saving to the town.

Pupils admitted to High schools from the eighth grade upon examination were: Theodore Wilson, Frederick Roy and Beulah Whitney.

TEACHERS.

Although none of the teachers this year are normal graduates, and only two have had experience, the pupils show commendable progress. This is due to the earnest and enthusiastic work of the teachers who have spared no effort to bring about the requisite results. Thus far there have been no changes in the teaching force, which is an advantage to the schools, as it

prevents the loss of time necessary to get familiar with pupils and work. It is economy to retain such teachers as have proved their ability, even at considerable advance in salary.

The school is a public institution and is always open for public inspection. In no way can parents and citizens show their loyalty and interest to better advantage than by visiting the school occasionally and frankly discussing with the teacher matters of prime importance to both.

BOOKS AND SUPPLIES.

New books were ordered for the Hibbard school as many of the old ones were destroyed with the old building. A few arithmetics and geographies have also been bought. Next year the old arithmetics must be replaced, and there is need of supplementary reading for the lower grades in geography, history and nature work, and for the upper grades in English classics. There is need also of dictionaries and wall maps for each school. All such supplies as are necessary for the best advancement of the pupil should be furnished. It is unjust to expect a teacher to accomplish results without furnishing the proper tools.

As the law requires that each school be equipped with a flag and flag staff there should be a special appropriation to furnish a pole for the Hibbard school and new flags for the Nutter, Swiftwater and Carbee schools.

ROLL OF HONOR.

Pupils neither absent nor tardy, 1910-11.

Respectfully submitted,

NORMAN J PAGE.
